TO PHYSICIANS.

3 NEW YORK, August 15th, 1868.

Preparation of Compound Ex-

The component parts are BUCHU. LONG LEAF, CUBEBS, JUNIPER BERRIES,.

Mode of Preparation .- Buchu, in vacuo. Juniper Berries, by distillation, to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used, and a small proportion of spirit. It is more palatable than any new in use. Buchu, as appeared by Druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys thin fits active principle, leaving a dark and gluthaus decocion. Mine is the color of ingredients. The Buchn in my preparation predominates; the smallest quantity of the other ingredients are added; to prevent fermentation: upon inspection it will be found not to be a Tineture, as made in Pharmacepoea, nor is it a syrup—and therefore can be need in sames where fever or inflamation exist. In this, you have the knowledge of the ingredients and the mode of prepara-Roping that you will favor it with a trial and that upon inspection it will meet with With a feeling of confidence, I am, very respectfully,
